GRADE 10 NEW BATCH (START)

PERSONALITY DEVELOPMENT

We commit ourselves to offer Holistic Education, spread the culture of creativity and innovation and create outstanding personalities enhancing 21 Century Skills.

Now Offline

After almost a year of learning digitally from home, students have come back to School with great excitement !

LAURUS The Universal School has resumed Offline Classes for Grades 6 to 10 from 23-02-2022.

LAURUS provides high-level guidance around safe operations and ensuring the wellbeing of Students and Teachers.

www.laurus.school

We have re-designed curriculum to focus on core subjects and fundamental competencies within the subjects.

The Pedagogies adopted by us highlight the importance of incorporating social-emotional learning into the curriculum

as the online mode of learning couldn't substantially impart it.

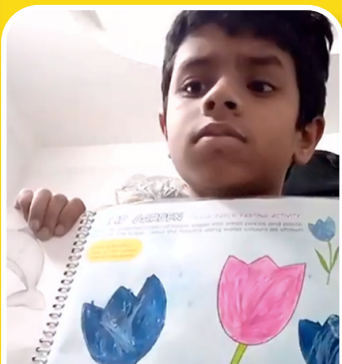

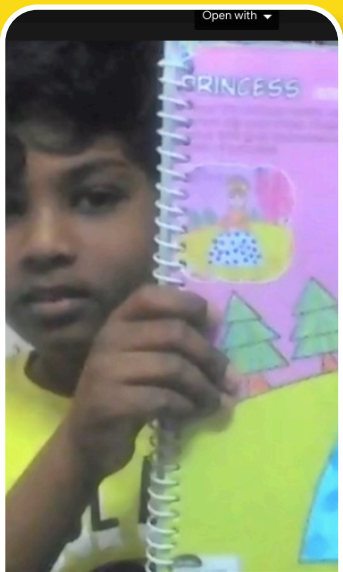

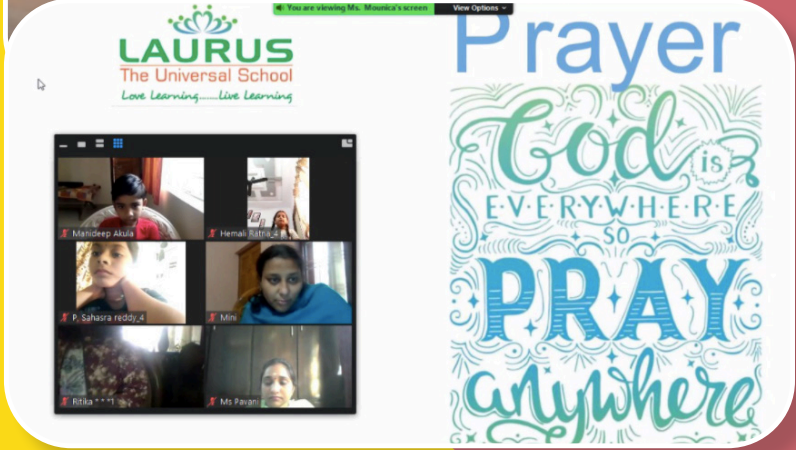

As we approach the opening of our building and welcoming students back, we encourage students to continue to take safety precautions to ensure they are safe and healthy.

School Assembly

School Assembly is built on a unique theme every week which focuses on the "Standards and Values" through various co-curricular activities. It is conducted with a complete and active participation of Students and Teachers.

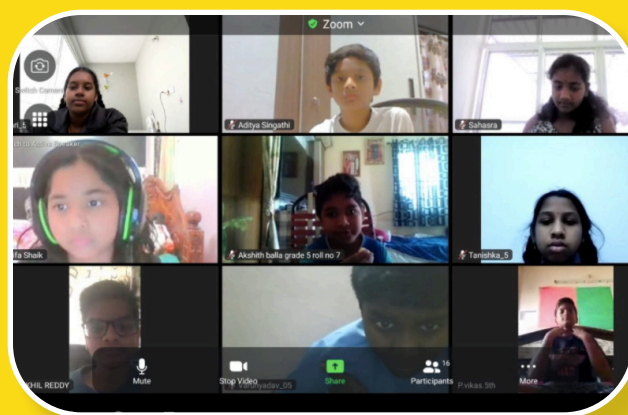

These are generally well planned and carefully conducted, putting a lot of light on various aspects of Students' Development such as experiential moments with anecdotes and stories. It has the potential to nurture and maintain a positive, healthy school culture which binds everyone together

Poem Recitation

Poem Recitation Activity is conducted on 05-02-2022 for Grades 1 to 10. This helped students to build confidence as they learnt to speak more accurately and persuasively about any piece of writing. Students astonished everyone with their voice modulation and amazing memorizing skills. Some Students recited poems on some burning issues such as pollution, save trees and harmful effects of plastic on our environment. A significant message was spread through their poems.

Memory Games

Memory Games Activity was conducted on 19-02-2022 for Grades 1-10. Playing memory games can improve brain functions, such as attention, concentration, and focus. Memory games give space to critical thinking and that helps children nurture their attention to detail. Students not only enjoyed but also tested their visual discrimination with games such as spotting differences, or linking two related images. These games exercise the brain to be more alert and sharper.

Master Minds Quiz 2

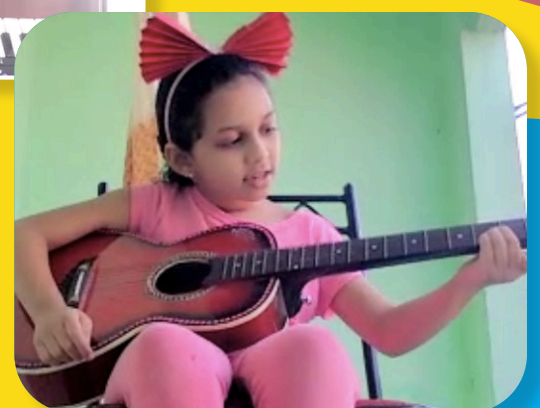

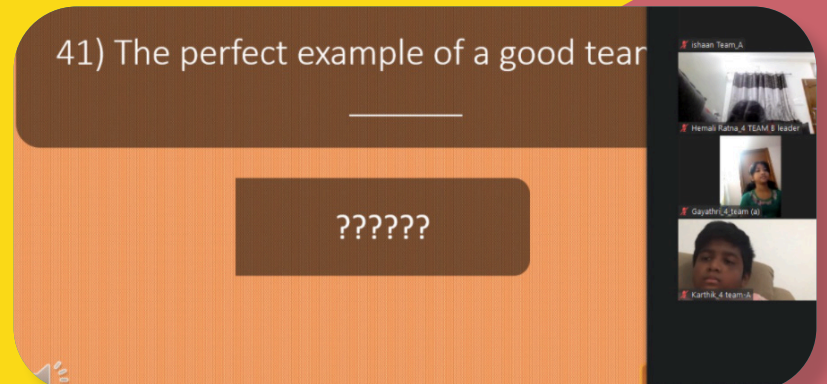

We organize various events at the school level in order to engage with young minds and develop an enhanced learning experience. One such activity is a Quiz competition– a fun and effective way to ensure that students actively participate to attain maximum knowledge.

Master Minds Quiz was conducted on 21-02-2022 for Grades 1-8 to motivate and engage students to put their best foot forward. It also built confidence in students and educated them about the future prospects of such competitions. The Winners have been awarded with Certificates.

Music Classes

Countless benefits are interconnected with Music Education. It's a well proven fact that learning music facilitates and enhances the learning ability in children which is inevitably used in other aspects of life as well.

LAURUS Music Classes help to improve the grasping power of a child -- the rhythms associated with playing music help in contraction and expansion of the walls of the cerebrum which help students grasp things very easily.

Grade 10 New Batch

The New Academic Session for Grade 10 has begun from 23-02-2022

With vaccines being administered and school reopened, Teachers are gearing up with a back-to-school learning plan.

LAURUS will continue taking initiatives to make education competency based which focuses on the student's demonstration of desired learning outcomes as central to the learning process. As the World moves forward in the 21st Century, LAURUS realizes the importance of time and resources and how innovation, digitalization, and integrating technology could be impactful in increasing our efficiency and effectiveness

Annual Examination 2nd March 2022

Grades 6 to 8 are writing Annual Examinations at School.

Personality Development

Guidance is an imperative term that has a far-reaching impact on individuals' lives. Academic career guidance is one of the most important guidance that LAURUS students get at School. The decisions of early student life have a major impact on their career, which is not just restricted to

their academics but have an impact on their social, financial, and personal life.

The Career Guidance Classes conducted by our Principal will help the students to understand and choose their career options as per their knowledge, skills, interest, and capability.
