TRAINING PROGRAM

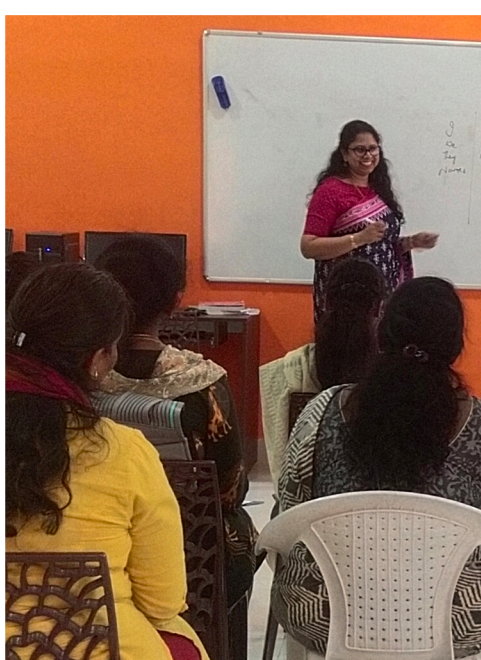

2022-2023 ACADEMICS CURRICULUM

At LUS, it is of incredible importance that teachers are not just told what to teach but how to teach. A great teacher is crucial to a student's development and growth. LUS Teacher learning or training is a continuous never-ending process which promotes teacher's teaching skills, master novel knowledge;

Teachers have the power to transform lives !

develop better or newer proficiency, which in return assists in improving student's learning. These training sessions helped teachers learn or create new teaching strategies which will bring back the interest of their students in the classrooms and encourage learning.

LUS Curriculum and Pedagogies

The LUS curriculum envisages individualised learning acumen and seeks to explore the potential of students in acquiring substantial acknowledgement and skills through academic rigors. With greater academic orientation and research skills in core academic areas, students would evolve as judicious young adults with a sense of real self-estimate having true values and principles.

It has one-of-a-kind approach to pedagogy and instructional design which nurtures Life-Skills by prescribing Curricular and Co-curricular Activities to help improve self-esteem, empathy towards others and different cultures etc, equally emphasising on Art Education, Health and Physical Education.

The LUS curriculum is an Inquiry and Skill-based curriculum aimed to promote 21st Century Skills – Critical and Creative thinking skills, Effective communication skills, Interpersonal & Collaborative skills, and Information & Media skills.

**The 4 C's of 21st Century Skills
which LUS emphasises in its teaching are :**

Communication is about sharing thoughts, questions, ideas, and solutions.

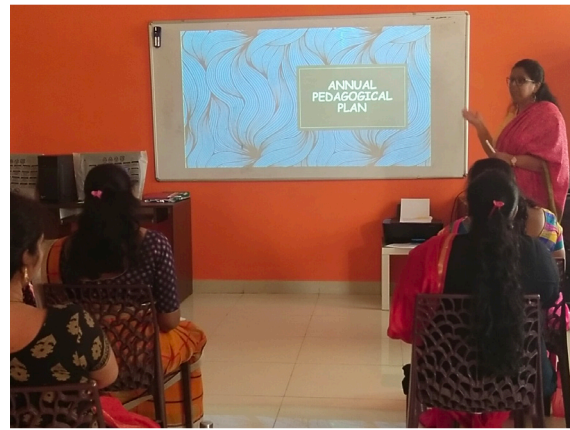

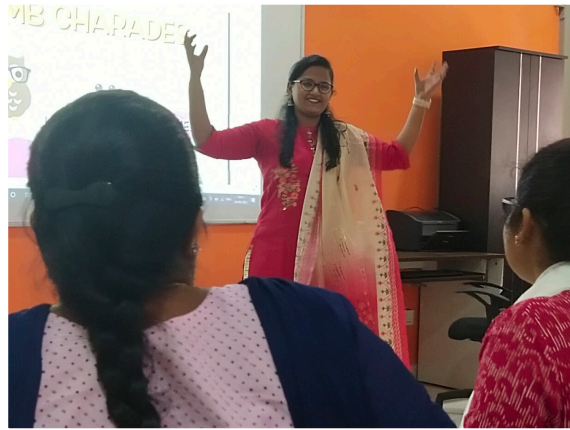

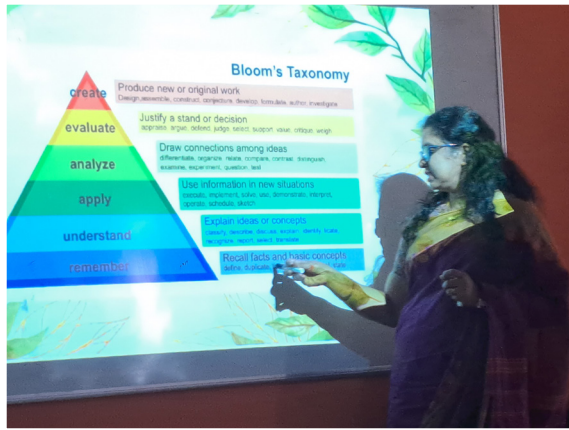

Collaboration is about working together to reach a goal and putting talent, expertise, and smarts to work.

Critical thinking is looking at problems in a new way and linking learning across subjects and disciplines.

Creativity is trying new approaches to get things done, innovation, and invention.

Therefore, for the purpose of fostering core competencies in learners, this curriculum encompasses major learning areas, from scholastic and co-scholastic point of view.

“The beautiful thing about learning is that nobody can take it away from you.”
